"My Navicon" is a new platform powered by Navicon SA, which enables fast overview of your supply network.

Monitor the progress of your shipment, while our experts handle your freight.

It is easy to get instant quotes, book online, track and trace your freight in real time, manage your shipping documents and even make your payment online.

#### **Instant Quote**

You may get an instant quotation and get better rates through constant updates.

#### **Online Booking**

Turn a quote into a booking, fast and easy

#### **Real time Tracking**

Manage your shipments and maintain control over your goods and supply network in real time.

#### **Online Documents**

Acting as a central communication hub, our system lets you, your supplier or your customer, collect, share, manage and store all your shipping documents digitally.

#### **E-accounting**

Download your e-invoice and proceed easily to secure e-payment option.

#### **Help Desk**

# VALUE ADDED SERVICES | OUR EXPERIENCE YOUR ADVANCE |

## **In House Forwarding**

We propose an innovative IT solution that is tailored to the customer's needs and internal procedures. This enables us to offer full-package services for your entire supply chain.

## **Global trade management services**

Through our trusted global network, we may reach and validate suppliers and buyers and offer you a unique opportunity to expand your business worldwide

## **Constant Training**

We have ensured that our staff is highly trained, to meet the demands of an integrated service, through a mixture of established and new skills training programs. Thus our team brings to you deep expertise.

## **Global agency coverage**

We heavily invest in global freight forwarding networks, in order to find trustworthy partners to help you expand your business in a safe and reliable manner all around the globe.

## **Technology**

Navicon SA understands that information technology is going to play a vital role in the transportation industry and has been developing IT solutions since 2006. We offer interactive e-commerce/EDI applications, that enable customers to monitor their shipments in real time.

## **Tailored Solution**

Meeting customers' unique needs with premium service and local expertise, we are working in partnership to analyze your business, apply analytics to find improvement opportunities, design customized solutions, manage implementation and provide quality assurance.

## **Certifications**

At Navicon SA we strive to be one of the most efficient freight forwarders by delivering services of the highest quality.
